WHAT SECUREX DOES

- Clients upload through a dedicated portal -- no email, no shared folders, no WhatsApp
- Every sender authenticates before submitting -- you know exactly who sent what
- Messages stay attached to the matter, not buried in an inbox
- Every action logged with who, what, and when -- admissible if needed
- One deployment per firm -- your client data never shares a tenant with anyone else

WHO IT'S FOR

Conveyancing attorneys - Bond originators - FICA and KYC professionals - Any regulated professional collecting sensitive client documents
